

MVS Adds Saegertown Manufacturing and Proform Tool Corporations to the Family

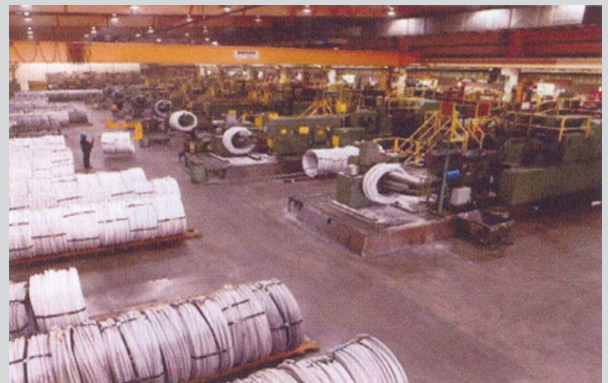

The MacLean-Fogg Company announced in February the purchase of Saegertown Manufacturing Corporation and Proform Tool Corporation, Saegertown, Pennsylvania. MVS Saegertown manufactures cold headed, cold forged, cold farmed and screw machined products and MVS Proform Tool manufactures hot and cold metal forged products.

Duncan MacLean, President of MacLean Vehicle Systems, stated, "Saegertown's expertise in metal forming, machining and other operations provides additional opportunities for growth in North America and Europe. We look forward to providing Saegertown and Proform Tool's skills to MacLean-Fogg's family of product offerings."

Chalmers Jordan, owner and CEO of Saegertown, commented, "We are pleased that MacLean-Fogg will carry on the fine traditions we have developed at Saegertown over the past forty years both with our employees and our very valuable diversified customers."
